

Victoria Juskiewicz

Front-end Developer

Front-end Developer with 5 years of social media manager experience combining my technical and social media skills to build tech solutions that have a real positive impact on the user. I am tech savvy, love using tech solutions for many day-to-day problems and would love to contribute to building such products that make people's day-to-day better.

EXPERIENCE

CodeOp, Barcelona — *Full Stack Developer*

January 2023 - March 2023

- 3 months intensive full-time bootcamp covering full stack technologies: JavaScript ES6+, React.js, ReactContext API, Node/Express and MySQL, HTML and CSS
- Built 3 full stack projects: an MVP, a Feature Extension and a Group Project

Goodwinsmith, Redfootshoes, Celebrity Waist Trainers (Remote) – *Social Media Manager/Influencer Marketing/ Content Creator*

July 2020 - November 2022

- Increased Instagram account engagement by 38% by building and executing a social media strategy through competitive research and platform determination,
- Reached up to 2.2M views on Tik Tok video for my clients by creating viral content, building a marketing strategy and building strong relationships with my clients,
- Successfully implemented influencer marketing and affiliate marketing strategies to increase sales,
- Reached 10k followers on the company's Instagram account within a timeframe of just 6 months,

Body Safety Ltd (Workwearexperts, Cargo workwear, Chemsplash) Dublin — *Digital Marketing Specialist*

August 2019 - May 2020

- Managed all social media channels (Facebook, Instagram, Twitter, LinkedIn, Tiktok). This required: measuring and reporting on the performance of all digital marketing campaigns, SEO and generation of inbound traffic, identifying Target Customers, analysing competitors strategies and building an efficient content strategy,
- Ensured design consistency between the website, social media channels and email marketing,
- Improved user experience and engagement by collaborating with the development team to define user needs and implement a new form design and website flow- resulting in reduced registration and purchasing time.
